Web Developer

Trujillo, Venezuela • +58 (424) 714-5280
therealpoka211@gmail.com • LinkedIn

I am a passionate web developer with experience in creating interactive and efficient applications, specializing in NextJS and related technologies. In addition to my work in web development, I am a huge videogames lover and am deeply invested in learning how to automate processes.

EXPERIENCE

Tu Conexion Infinita, Trujillo Systems Coordinator

Jan 2025 — Present

Leading the development of the official website for 'Tu Conexion Infinita', implementing a robust payment portal and utilizing WispHub as a management tool.

AgroTrujillo S.A Tech Support

Aug 2021 — Jan 2025

I developed a system for managing loans to producers in order to automate these processes in the area of Productive Management.

EDUCATION

Computer Engineer Degree

UPTTMBI, Trujillo – Mar 2022 — Dec 2024

The description of the education

Associate's Degree in Computer Science

UPTTMBI, Trujillo – Jan 2020 — Mar 2022

PROJECTS

AgroTrujillo Loans Management System • Jan 2023 — Jul 2024

As a worker at AgroTrujillo, I noticed a problem when managing producers when granting them loans, so I decided to develop a system that allows managing loans granted to producers in the area of Productive Management.

LimpiVen - Cleaning Services App • Apr 2025 — May 2025

LimpiVen is a mobile application designed to connect users with cleaning services in Venezuela. The app streamlines the process of finding, booking, and managing cleaning professionals for homes and businesses.

Inventory System for CDCE • Jun 2025 — Jul 2025

I've made an inventory management system that helps users track, organize, and control stock across different zones or areas. It provides a simple interface for managing items, quantities, and locations efficiently.

Tu Conexión Infinita • Jan 2025 — Present

This is the official website of the company that includes all relevant information about the service
